EDUCATION

Jun 2024
National Taipei University
Bachelor of Computer Science
and Information Engineering
3.7/4.0 GPA

SKILLS

- Create and Fine-tune model with **Pytorch and Tensorflow**
- Familiar with **Linux OS** and terminal command
- Familiar with using **Git** and **Docker**
- Digital Image processing
- Socket programming (**Client/Server , P2P**)
- Frontend(**React + JS**)
- Backend(**Flask + SQL**)
- **IT maintenance** experience

LANGUAGE

C/C++ , C# , Python , JavaScript ,
html/CSS ,Bash Shell , Json

PROFILE

I am a **hard-working** and **responsible** person. Capable of finishing task individually or cooperating with others. Due to the work experience and a few team project in my school life, I learned the importance of **teamwork and communication**. During the whole of one year, I had helped doing the research with my professor and proposed many new idea. My biggest interest is **learning new technique and creating novel ways of solving problems**.

WORK EXPERIENCE

2022-2024

National Taipei University, Operation Section

- The University's hardware repair and information-related consulting services for computer equipment
- Management and maintenance of the school's cloud platform services.
- Computer Center Software License Certification and Download Server

SCHOOL EXPERIENCE& PROJECT

- Software engineering:
 - Web server status and attack monitoring software
 - Helping Map software base on block chain technique
- Computer Graphic engineering:
 - 3D object Rendering (base on OpenGL)
- Capstone:(**Third price** in Department's project contest)
 - Photo-Realistic Lighting System for AR Applications (Image processing for feature enhancement and fine-tune models for AR rendering)
- Socket programming:
 - C# window form game (P2P)
- Director of CS student association
- Research and side Project:
 - Implement SH&SG rendering and median cut method for feature extraction
